

GROWING UP BOULDER MAP SPONSORSHIP

Now is a great time to support Growing Up Boulder (GUB)!

GUB is becoming a "UNICEF USA Child-Friendly City," and in spring 2023, we are releasing the fifth edition of our popular Child-Friendly City map. This map, which promotes the Child-Friendly City values of inclusion, equity, and collaboration, highlights children's favorite places in our great city.

When your organization supports GUB, you join other community leaders making a visible contribution to the well-being of Boulder's children, youth and families! Plus, you gain visibility with the 15,000 families that will receive our map!

Uni Hill Elementary School students make map recommendations at the Museum of Boulder.
